BOLLE PROTECTION GENERAL CONDITIONS OF SALE

1 **ORDERS:**

The purchase-sale relationship between the Parties, Bollé Protection and the Buyer, is governed by these conditions of sale. All orders placed by the Buyer imply full and unreserved acceptance of these conditions.

In all cases, these general conditions of sale take priority over the general conditions of purchase, as well as over any clause regardless of the type, whether printed or handwritten, contained in the customer's commercial documents.

Because of the specific nature of certain goods, Bollé Protection reserves the right to notify the Buyer of the special conditions of execution of the order.

Orders are firm and final unless they are **cancelled** by the Buyer within a period of 48 hours as from when the order was issued. The minimum amount of each order is €100 for France and €200 for other countries.

2 **DELIVERIES:**

Products are **despatched by Bollé Protection which invoices the Buyer with the cost of transport (except in special cases).**

It is the Buyer's responsibility, in the event of damage or missing items, to express clear and precise concerns on the transport documents and to confirm these concerns to the carrier, by registered letter with advice of receipt, within a maximum period of three business days as from the date of delivery. A duplicate of this letter should be sent to Bollé Protection without delay.

Delivery times are indicative and without guarantee; delivery delays cannot, therefore give rise to damages, or to cancellation of orders in progress.

Bollé Protection reserves the right to split deliveries for an order.

Any event of force majeure (fire, strikes, accidents, bad weather, war, impossibility of procurement, etc.), automatically suspends Bollé Protection's obligations and permits it, if need be, to cancel current orders.

3 **COMPLAINTS - RETURNS - WARRANTY:**

Complaints concerning apparent defects in the goods delivered must be reported to Bollé Protection in writing (via e-mail or fax) within a maximum period of seven business days as from the date of delivery. After this period of time, no complaints will be accepted.

Goods may not be returned without BOLLÉ PROTECTION'S prior agreement in writing.

All returns must be accompanied by supporting documents that BOLLÉ PROTECTION can use to determine the origin and causes of the returns. Goods will be re-despatched DDP, to the place of delivery, INCOTERM ICC 2010.

All repair costs incurred by BOLLÉ PROTECTION for the return of the goods are borne by the customer.

Bollé Protection guarantees the Buyer against all manufacturing defects affecting the goods and accessories, within the limit of the price of the aforesaid damaged goods and accessories, to the exclusion of all direct or indirect damage caused by this defect.

4 **PRICES AND PAYMENT:**

The price of materials is calculated on the basis of the tariff ex VAT, in force on the date of delivery, as well as the scale of price reductions communicated to the Buyer. Bollé Protection undertakes to inform the Buyer of any change of price, within a period of 30 days before the date the new price comes into force.

Except in the case of Special Conditions of Sale, invoices are payable **30 days** as from the invoice date. Advance payment does not give rise to a discount.

Non-payment of an invoice within the time limit of **10 days** will result in the following consequences, at Bollé Protection's discretion: suspension of the execution and delivery of all current orders, forfeiture of the term of current invoices. After a formal demand remains unsuccessful for 8 days, late charges will become payable calculated pro-rata, on the basis of 3 times the legal interest rate. In the event of recovery of its debt by way of litigation, the amount ex VAT of the Buyer's debt in respect of Bollé Protection will be, as of right, increased by 15%, in addition to the payment of a fixed sum of 40 euros as recovery compensation.

Any change in the Buyer's financial or economic situation of a kind likely to affect its solvency authorizes Bollé Protection to change the payment terms granted to the Buyer, in particular the right to demand cash payment from the Buyer.

No claim or dispute authorizes the Buyer to suspend the payment of an invoice. Bollé Protection does not authorize offsetting. Only credit notes issued by Bollé Protection may partially or totally cancel the amount of an invoice.

5 **RETENTION OF TITLE CLAUSE - RISKS**

BOLLE PROTECTION RETAINS OWNERSHIP OF GOODS UP UNTIL FULL PAYMENT OF THE PRICE AND ANCILLARY COSTS. Risks relating to goods are transferred to the purchaser from delivery of the goods (except in the case of special conditions). The Buyer undertakes to insure the materials sold on behalf of the owner against all risks they may run or create, as from their delivery.

The Buyer must inform Bollé Protection without delay of any measure, proceedings, seizure, requisition or any other measure that may call into question its right of ownership of the goods still not fully paid for.

Goods in the Buyer's possession are deemed to correspond to invoices yet to be paid.

6 **COMPETENT JURISDICTION / APPLICABLE LAW:**

In the event of a dispute, LYON Commercial Court alone will be competent. The law that applies will be French Law.
