DATASHEET

BS8599-1:2019 CRITICAL INJURY PACK HIGH RISK IN BAG

- The new BS8599-1:2019 standard requires that any industry that has the potential risk of a critical injury should have a Critical Injury pack to supplement their normal workplace first aid kits
- The main areas for major trauma injuries would be: dangerous equipment or machinery, sharp instruments, cutting equipment, power tools, construction, agriculture, forestry etc.
- For this reason we have introduced three categories of Critical Injury packs, to cover different risks you might find in the workplace:
Low risk, Medium risk and High risk
- High Risk - for all industries who face the potential of critical injury - dangerous equipment, cutting equipment, power tools etc
- Kit includes larger haemostatic dressings, trauma dressings and all products supplied in medium risk kit, allowing you to deal with all eventualities
- Kit is also designed for use when members of the public are injured as a result of an act of terrorism or other mass casualty incidents

Contents:

- 1 x Guidance note
- 2 x Large Trauma dressings
- 1 x Foil blanket
- 1 x Tuff cut scissors
- 2 x 10x10cm cuteeze dressing
- 3 x Haemostatic dressing 10cm x 1M
- 1 x Tourniquet (SOF)
