DATASHEET

FOREHEAD THERMOMETER

This colour change thermometer provides a quick and easy way of measuring body temperature. Hold the strip against the forehead and read off the temperature.

- Temperature range : 35C(95F) - 40C(104F)
- Temperatures shown in Celcius and Farenheit.
- No batteries required.
- Bendable.
- Easy to use.
- Short time to wait for results.
- Non-toxic.
- Ideal for use at home or pocket sized for use when traveling.

The forehead thermometer reads temperatures in increments of 1 deg and comes with instructions. Use the thermometer at room temperature between 15C and 30C.
