Please check this artwork proof carefully, ensuring the font, dimensions and colours are as required. Once you have checked the proof, either sign it off as approved or instruct on the changes required. Pantone shades will only be used if these have been provided originally. If they were not supplied then a best match will be done to any original artwork you supplied but please note that it will not be a 100% colour match. Going forward it is the responsibility of the customer to notify of any changes and sign off a new proof.
