MSA63013-00TEU

The V-TEC PFL (Personal Fall Limiter) Retractable Lanyard is the most compact & lightweight self-retracting lanyard ever developed in its class using multiple spring radial energy-absorbing technology. This new design eliminates the need for an external energy-absorber outside of the housing making it the smallest personal fall limiter on the market.

Suitable for multiple applications, the 3 meter PFL is designed specifically for environments where close anchorage is available. The product offers fall arrest and restraint for users 60 to 140 kg including tools.

- Integral energy absorber
  - Requires zero recalibration or adjustment
  - The energy absorber is completely sealed from external contaminants
  - A fully rotating attachment point for complete flexibility –both 360° and 180° providing a free range of motion
  - Structurally reinforced pawl mechanism through precision engineering
  - Highly durable polycarbonate case houses the SRL, and its transparency allows for easy visual inspection of critical internal components
  - High quality components manufactured from high-grade stainless steel and engineered plastics
  - Single Leg
  - Aluminium rebar lightweight hook anchorage point
  - Aluminium carabiner triple locking (TL) captive pin
  - EN360:2002 Personal protective equipment against falls from a height.
- Retractable type fall arresters
