

INSTANT WARM PACK C/W GENTLE TOUCH TECHNOLOGY LARGE 5"X 9"

The Rapid Relief® Instant Warm Packs with patented Insta Gel technology deliver soothing warmth directly to the skin for therapeutic healing. Patented gel technology turns from liquid to a contouring gel when activated, allowing for the product to contour to each affected body part. Tested to retain heat much longer compared to other traditional instant warm packs.

Features

- Temperature: Delivers approximately 44°C/111°F of warm therapy when activated at room temperature
- Gentle Touch technology, which means this product can be applied directly to the skin
- FTP (fold-to-pop) technology, allowing the user to activate the warm pack simply by folding it in half
- Direct-to-skin application with Gentle Touch technology
- Tri-lingual packaging (English, Spanish and French)

Application

INSTANT WARM THERAPY RELIEF:

- Arthritis pain
- Relax sore muscles
- Improve the flexibility of tendons and ligaments
