

INSTANT COLD PERINEAL COMPRESS 5"X 15"

The Rapid Relief Instant Cold Perineal Compress (Direct-to-skin) quickly delivers cold therapy to ease pain and reduce swelling of the perineal area, providing maximum patient comfort with minimal nursing intervention.

Features

- Temperature: Delivers approximately 4.4'C/40'F of cold therapy when activated at room temperature
- Extra absorbent with an adhesive strip to keep it firmly in place
- Longer front-to-back area provides greater coverage and protection from leakage
- FTP (fold-to-pop) technology, allowing activation of the cold compress simply by folding it in half
- Tri-lingual packaging (English, Spanish and French)
- Direct-to-skin application

Application

INSTANT COLD THERAPY RELIEF:

- Pain and inflammation of the perineal area after childbirth and/or vasectomy procedures
